WHISKEY & WOOD. A LOVE STORY Discover Our Whiskeys

At Glendalough Distillery we are on a relentless search for the best flavours. We take inspiration from St. Kevin's pursuit of something more meaningful in life, and his deep connection to nature. This sees us venturing into the deepest forests of the world, to find the rarest wood, that deliver the most thought-provoking flavours to our whiskey.

The World's Best Oak

A key influence on the flavour of our whiskey comes from the wood it has spent time in. There are countless nuances in how that wood effects and injects flavour: the straightness of the tree, the fineness of the grain, the size of the barrel or the depth of the char. Our wood program is a testament to our relentless pursuit of flavour.

American white oak forms the backbone of our maturation and where we venture off the beaten track is by finishing all of our whiskeys in a second (and sometimes third) very different cask. Irish, Japanese, French and Spanish oak are used to finish some of our various whiskeys. Each impart discernible, unique and exquisite flavours.

At Glendalough Distillery we progressively-craft luxury spirits in the Wicklow Mountains. We hope these spirits evoke a sense of place through their depth of flavour as they are an expression of what we love about these mountains.

CHAPTER 2 Our Craft

At Glendalough Distillery we take inspiration from the majestic surroundings of our home in Wicklow. The sights, the smells, the tastes, and sounds evoke a sense of place we look to share in our range of spirits.

We keep St. Kevin's appreciation of what nature has to offer alive through our relentless pursuit of something more meaningful in our products. We are deeply connected to nature, and this is evident when you experience one of our crafted products.

All of this combines to deliver the most thought-provoking, unique flavours, that are brought to you by Glendalough Distillery.

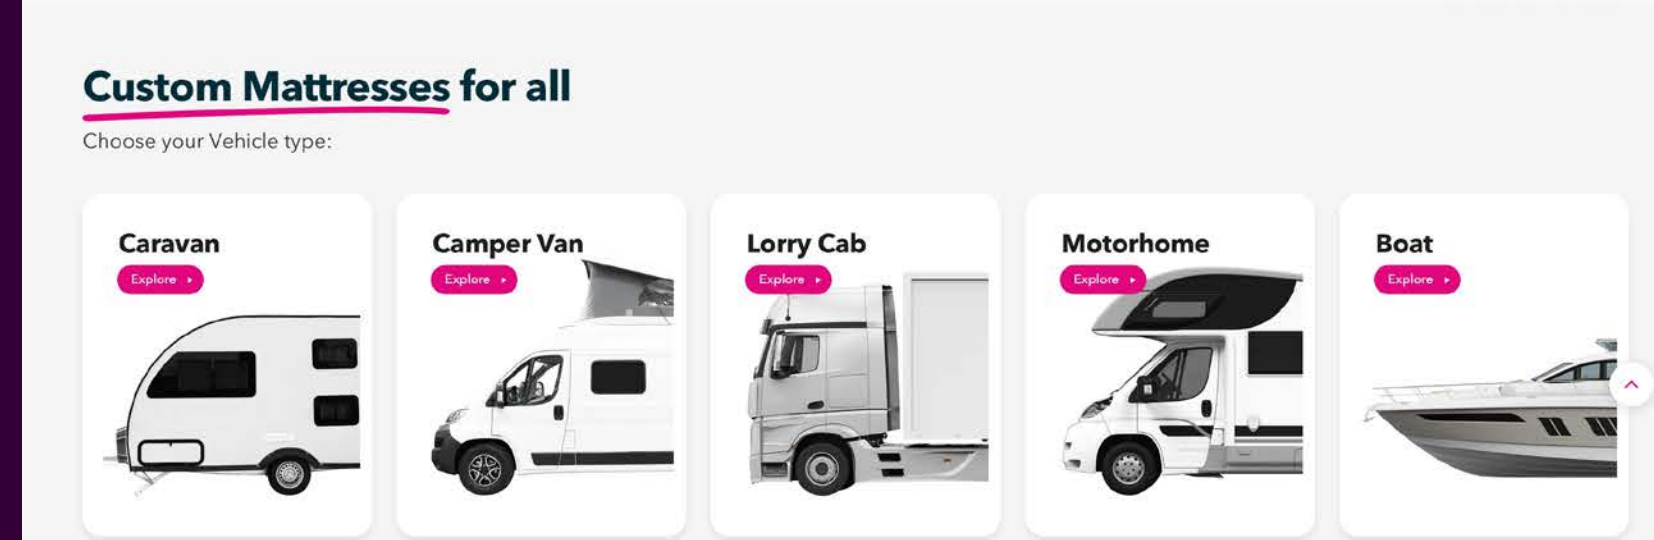

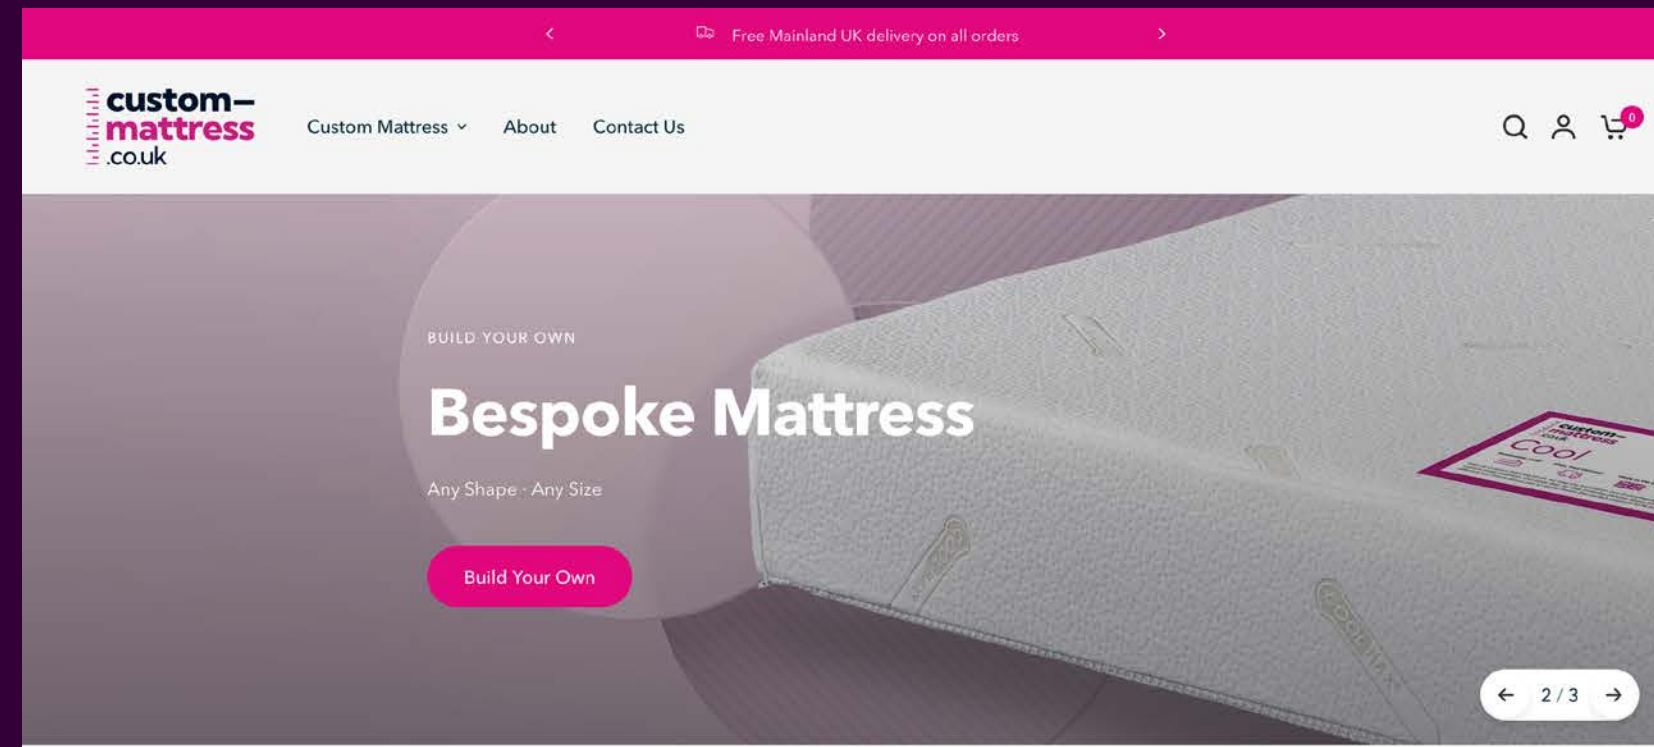

CHAPTER 1 Our Home

The story of St. Kevin is where we draw our inspiration. He abandoned safety and comfort to follow his passion and create something more meaningful in the mountains.

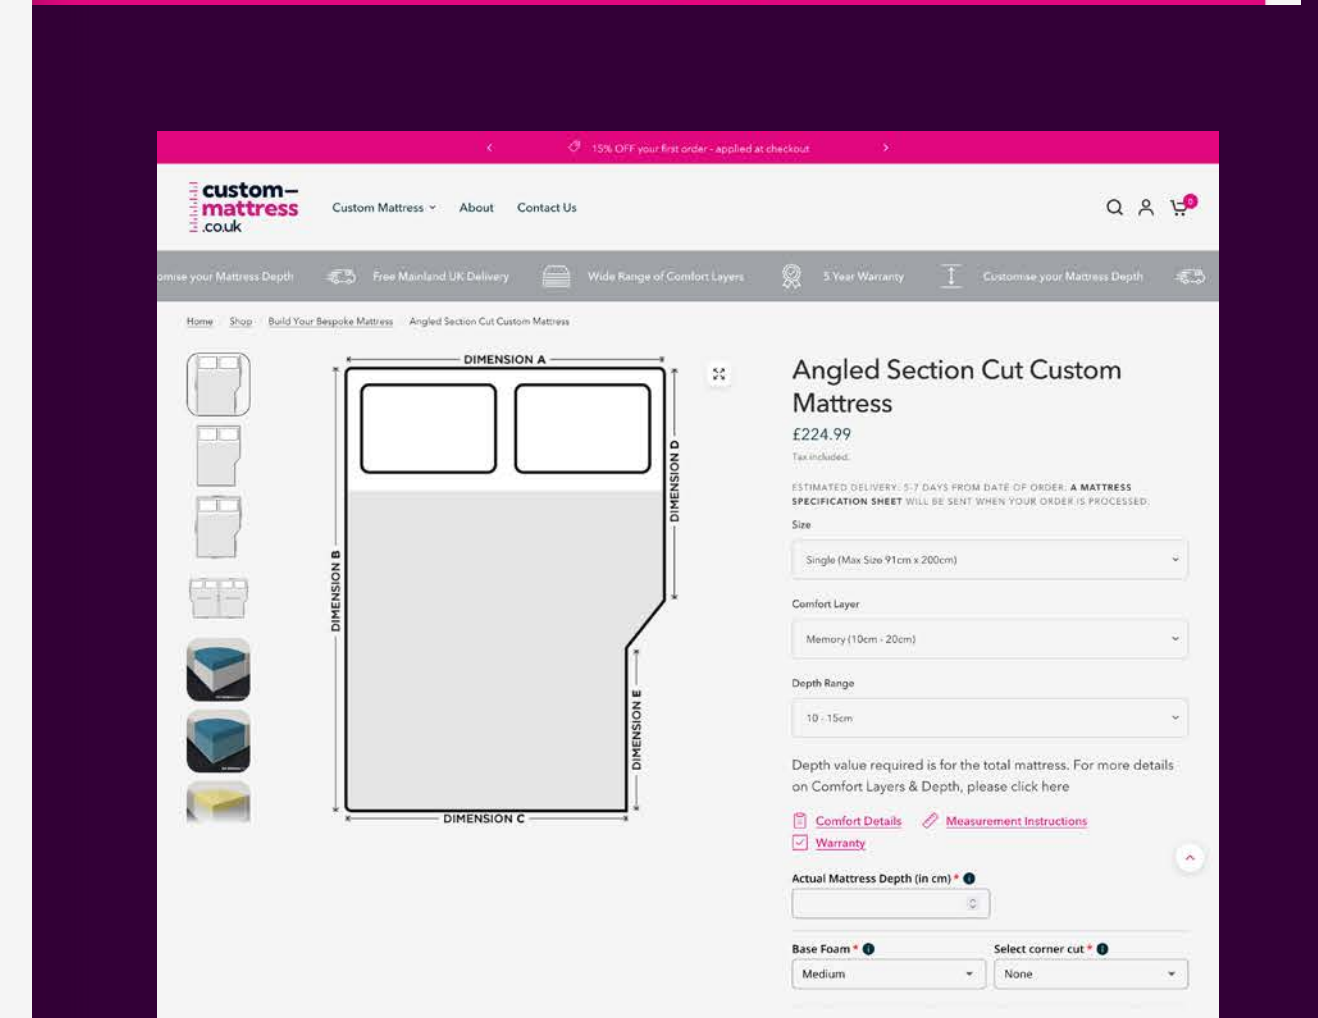

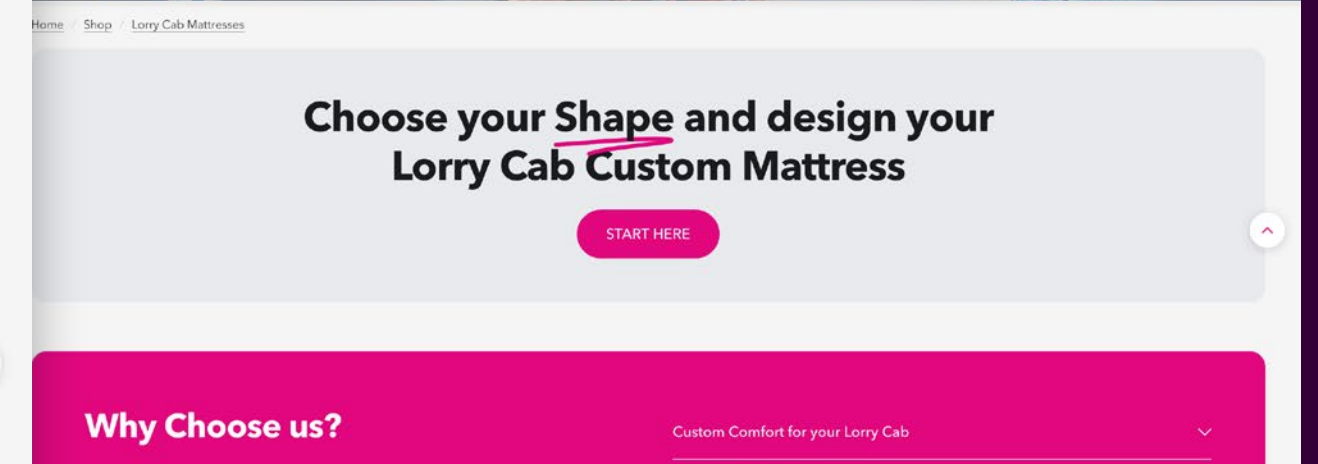

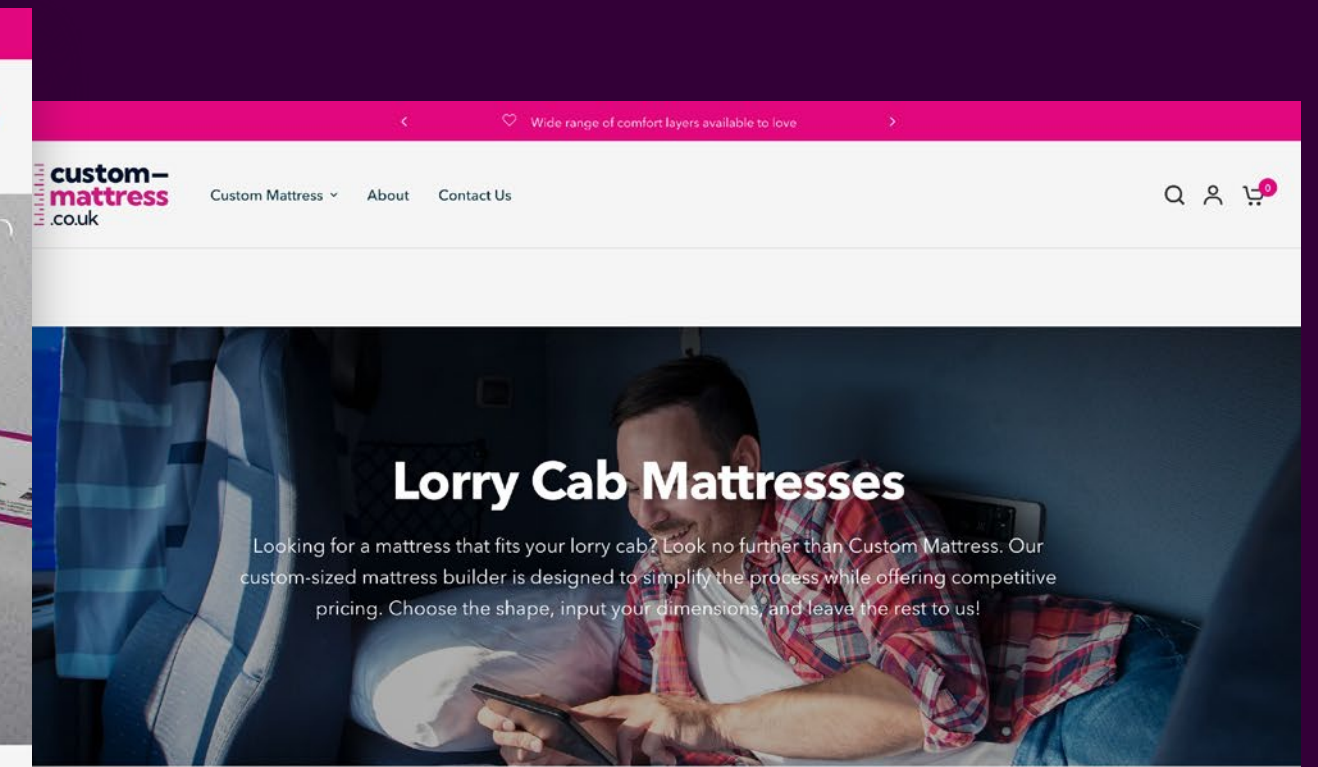

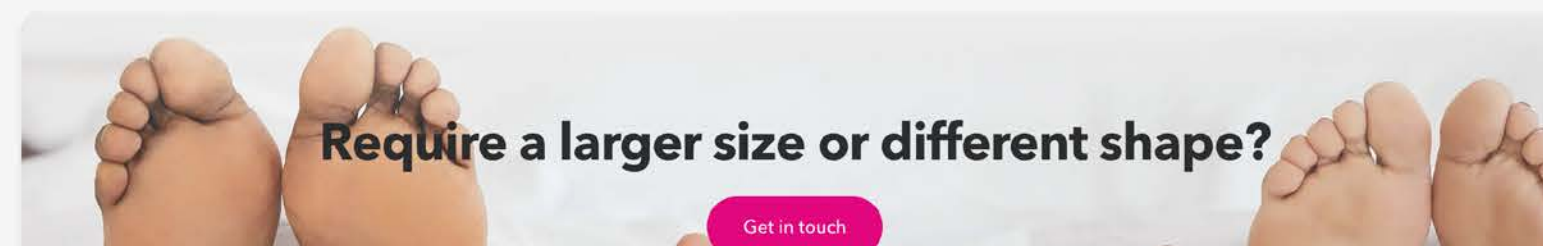

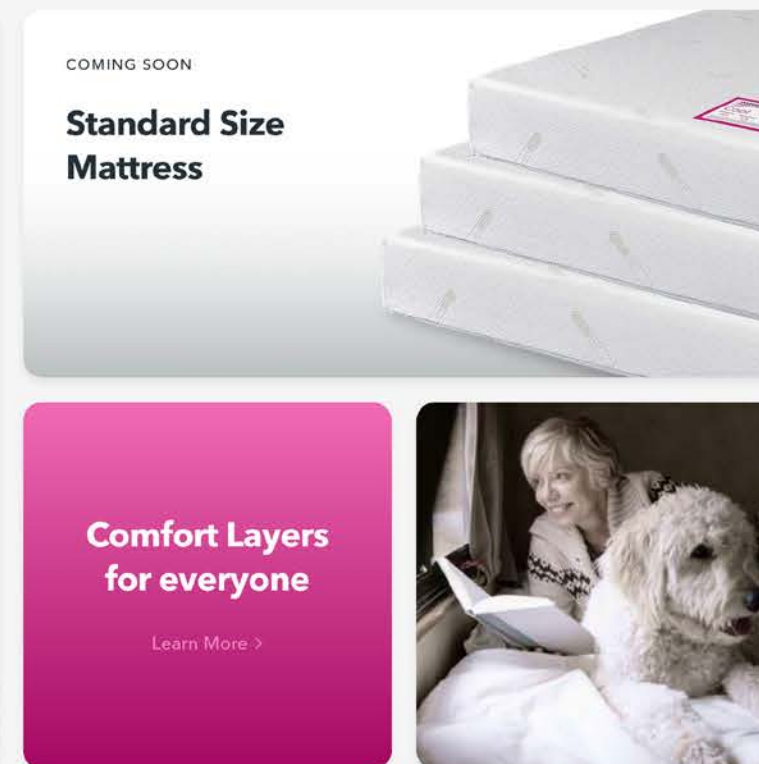

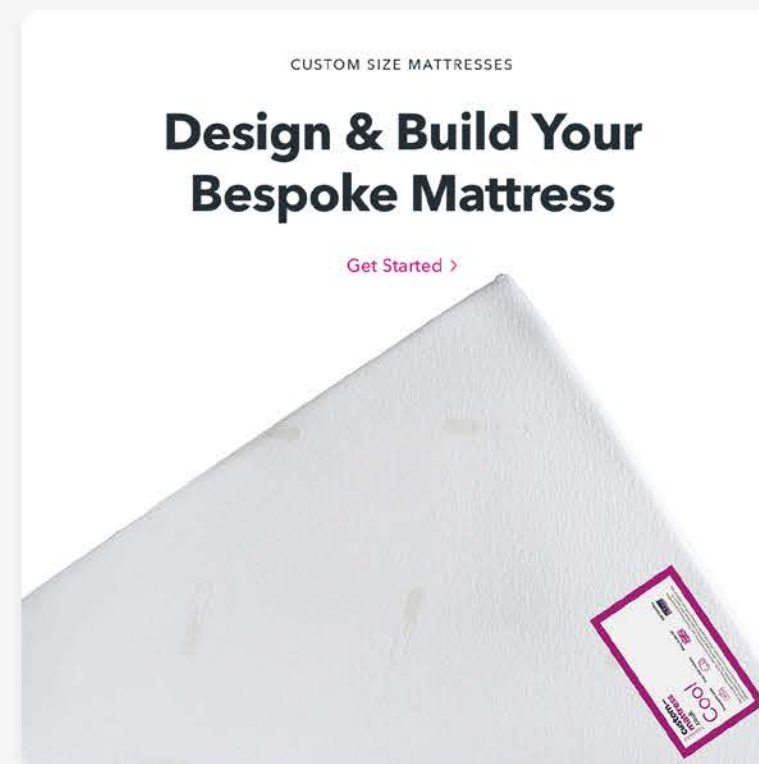

CHAPTER 3 Our People

Our distillery is located in the heart of County Wicklow, and our team there have become global award winners at creating craft luxury spirits. They have released some innovative world-firsts such as Irish single malt whiskey aged in rare Japanese Mizunara oak, Irish single malt whiskey aged in Wicklow Irish oak, and a range of distinctive Irish gins distilled from fresh hand-picked wild botanicals that are foraged daily in the Wicklow mountains.
